RESOURCES

2016 ANNUAL REPORT

CHAIRMAN'S LETTER

Dear Shareholders,

The financial year ending 30 June 2016 was a frustrating one for the Company.

The year was not without its achievements. After the Company published a maiden ore reserve for the Wonmunna iron ore project in January 2015 it successfully secured the mining and environmental approvals required for the commencement of mining operations at the project. The Company also repaid $0.5m of debt during the year.

However, notwithstanding these achievements, a declining iron ore price and difficult debt and equity markets in 2015, led to the Board deciding to limit development activities related to the Wonmunna project and ultimately to seek ASX and shareholder approval to delist from ASX. As you will be aware, the Company was removed from the Official List of ASX on 24 December 2015.

With the benefit of hindsight and having witnessed the financial hardship suffered by a number of mid-tier iron ore producers which led to them ceasing or suspending operations, your Board believes the decisions it took in late 2015 were justified.

At present, the Board is focussed on reducing costs wherever possible while at the same time positioning the Company to be ready to proceed with the development of the Wonmunna Project when pricing and conditions improve.

On behalf of the Board and shareholders I wish to convey my thanks to major shareholders Ochre Group Holdings Ltd and Resource Capital Funds (RCF) who have supported the Company over this challenging period, in particular, RCF which continues to provide funding support.

Shareholders can be assured that the Board firmly believes in the long term potential of the Wonmunna project and is keen to move forward with the development of the project when market conditions are conducive to doing so.

Yours sincerely,

Paul Kopejtka
Non-Executive Chairman

The Directors submit their report together with the financial report of the consolidated entity consisting of Ascot Resources Limited (the "Company" or "Ascot") and its controlled entities, for the financial year ending 30 June 2016.

1. INFORMATION ON DIRECTORS

The names and details of the Company's Directors in office during the financial year and until the date of this report are as follows. Directors were in office for the entire year unless otherwise stated. Where applicable, all directorships held in listed public companies over the last three years have been detailed below.

Paul Kopejtka

Non-Executive Chairman

Mr Kopejtka has previously been associated with a number of Australian listed companies, most notably Murchison Metals Limited, where he was a founding director, shareholder and former Executive Chairman. Under Mr Kopejtka's leadership, Murchison successfully developed the Jack Hills Iron Ore Stage 1 mine producing 2 million tonnes per annum of high grade iron ore.

Mr Kopejtka has a Bachelor's Degree in Chemical Engineering and is a member of the Australian Institute of Company Directors.

Mr Kopejtka is currently Non- Executive Chairman of MHM Metals Ltd.

Andrew Caruso

Non-Executive Director

Mr Caruso has over twenty years' experience in the mining industry including operations, management and executive roles within Australia and internationally.

Mr Caruso has previously spent over ten years working in significant Australian iron ore and coal operations, including six years at iron ore ventures operated by BHP and Rio Tinto in the Pilbara. Previously he was CEO of Crosslands Resources Ltd, which was developing the Jack Hills iron ore expansion project in Western Australia. He holds a Bachelor's Degree in Mining Engineering and a Diploma in Applied Finance and Investment.

Chris Corbett

Non-Executive Director

(Appointed 21 September 2015)

Mr Corbett joined Resource Capital Funds in 2008 after working as a financial analyst and commercial manager within the business development department at Wesfarmers Limited. Prior to this he worked as an engineer for Byrnecut Mining Pty Ltd where he gained technical experience in shaft sinking and equipping and underground mine development and production.

Mr. Corbett has a B.Eng. (Mech, First Class Honors) and a B.Comm. from the University of Western Australia, Grad. Dip. in Mining from the Western Australian School of Mines and a Grad. Dip. in Applied Finance and Investment from FINSIA. Mr. Corbett also serves on the Board of Directors of portfolio company Wolf Minerals Ltd.

Shahb Richyal

Non – Executive Director

Mr. Shahb Richyal is a member of the principal investments (and acquisition financing) team at Gunvor Group (Gunvor). He is currently based in Singapore and responsible for the Asia Pacific region. Mr Richyal has over 10 years' professional experience, the majority of which has been covering the natural resources sector in a principal investment, M&A and capital markets advisory capacity. Prior to joining Gunvor, Mr Richyal held positions with Morgan Stanley (Investment Banking Division), Dresdner Kleinwort (Strategic Advisory & M&A) and PricewaterhouseCoopers.

Mr Richyal is a qualified chartered accountant (member of the Institute of Chartered Accountants of Scotland) and holds a MChem (Honours) from the University of Oxford.

Nathan Featherby

Non – Executive Director

Mr Nathan Featherby is currently the Executive Chairman of Ochre Group Holdings Ltd (Ochre). He holds a Bachelor of Commerce from Curtin University, and has spent most of his working career in stockbroking and merchant banking with a focus on small- to medium size mining and exploration companies.

Mike Young

Non – Executive Director

Mr Young is a geologist and a graduate of Queens University, Canada with a Bachelor of Science (Honours) degree in Geological Sciences. His experience includes base metals, iron ore, uranium and gold, with a strong focus on mine-camp exploration, resource definition, and mine development. Mr Young was a founding director of uranium developer Bannerman Resources, the first CEO and MD of BC Iron and is the non-executive Chairman and founder of Cassini Resources. Mr Young is currently Chief Executive Officer and Managing Director of Vimy Resources.

Former Directors

James McClements

Non – Executive Director

(Resigned 21 September 2015)

Mr James McClements co-founded Resource Capital Funds (RCF) in 1998 and oversees all aspects of RCF as Managing Partner. RCF currently manages U$2.8 billion in investments and raised US$2.04 billion for its sixth fund. RCF has provided financial support to over 100 mining companies involving projects located in 42 countries and relating to 29 different commodities. Prior to launching RCF, Mr McClements was a natural resources sector banker with N.M. Rothschild in Australia and USA, and with Standard Chartered Bank. Mr McClements is an honours graduate in Economics from the University of Western Australia, and serves on the board of Directors of RCF portfolio company, Global Advanced Metals Pty Ltd as Chairman and as an Independent Non- Executive director of Mineral Resources Ltd (ASX:MIN).

Francis DeSouza

Non-Executive Director

(Resigned 31 August 2016)

Mr DeSouza holds a Bachelor of Commerce majoring in Banking and Finance and has many years' experience in financial services, specialising in corporate advisory and equity markets with a specific focus in the resources sector. He has facilitated a number of resource transactions ranging from reverse takeovers, project evaluations through to capital raisings and initial public offerings (IPOs).

Mr DeSouza is the co-founder of Otsana Capital Pty Ltd, a boutique advisory firm specialising in mergers and acquisitions, capital raisings and IPOs.

2. INFORMATION ON COMPANY SECRETARY

Chris Foley

Company Secretary

Mr Foley has over 25 years' experience in the resources sector in both private practice and various corporate roles including Company Secretary for ASX listed companies. He holds a Bachelor of Jurisprudence and a Bachelor of Laws from the University of Western Australia, as well as a Graduate Diploma in Applied Corporate Governance.

3. DIVIDENDS

No dividend has been paid during the financial year and no dividend is recommended for the financial year.

4. DIRECTORS' MEETINGS

The number of Director's meetings held during the financial year and the number of meetings attended by each Director during the time the Director held office are:

Directors	Appointed/Resignation	Number Eligible to Attend	Number Attended
Paul Kopejtka	Appointed 10 December 2012	6	6
Andrew Caruso	Appointed 27 March 2013	6	6
Francis DeSouza	Appointed 21 September 2011	6	5
Chris Corbett	Appointed 21 September 2015	4	2
James McClements	Resigned 21 September 2015	2	1
Shahb Richyal	Appointed 13 October 2014	6	6
Nathan Featherby	Appointed 13 October 2014	6	4
Mike Young	Appointed 12 June 2015	6	4

5. PRINCIPAL ACTIVITIES

The Company's principal activities during the Period were iron ore and coal exploration and development, in Australia and Colombia.

6. OPERATING AND FINANCIAL REVIEW

Wonmunna Iron Ore Project

In October 2015 the Company announced that due to the uncertain state of the iron ore market and volatile market conditions generally, the Board had decided that, until the outlook stabilises and improves, further activity related to development of the Company's Wonmunna Iron Ore Project will be limited to:

- enhancing the value of the Project including (but not limited to) by targeted exploration, resource drilling, and value improvement initiatives; and
- obtaining any further necessary approvals to underpin a potential future project financing.

The Company also announced that it would investigate opportunities for corporate or asset transactions that have potential to enhance the value of the Project or the Company generally.

As a consequence of the Board's decision noted above, the Company sought and obtained ASX and shareholder approval to be removed from the Official List of ASX. The Company was officially delisted on 24 December 2015.

In May 2015 the Company received an assessment of stamp duty on the acquisition of the Wonmunna Project from the WA Office of Stamp Revenue (OSR). OSR assessed duty of $1,690,540. The Company has reached agreement with OSR to pay the assessment in instalments.

Titiribi Coal Project

During the year Ascot made a submission to be presented to the regulator to the regulator for environmental (PMA) approvals to support any future underground mining.

Ascot maintains a small presence in Colombia to advance its interests and to retain optionality in the event of an improvement in coal markets in future.

Corporate

In September 2015, cornerstone investor Resource Capital Fund V L.P. (RCF) nominated Mr Chris Corbett as its representative on the Board to replace Mr James McClements who resigned.

The Company reached agreement with RCF to extend the maturity date of a Loan Note Agreement made between RCF and Ascot in May 2013 from 17 September 2015 to 30 June 2016. In addition, should RCF elect to convert the subscription sum into ordinary fully paid shares of Ascot, the parties have agreed a conversion price of $0.10 per share (reduced from $0.36 per share under the original terms). The issue of shares to RCF on conversion of the amended note was approved by Ascot shareholders at a General Meeting held on 14 March 2016. Subsequent to year end, the maturity date of the RCF Loan Note was further extended to 30 November 2016.

The full amount of $500,000 due under a Loan Note Agreement between Ascot and Sedgman Ltd was repaid in August 2015. The Company issued 173,762 fully paid ordinary shares to Sedgman in lieu of interest payable up to the date on which the principal was repaid.

Directors

Cornerstone investor Resource Capital Fund V L.P. (RCF) nominated Mr Chris Corbett as its representative on the Board to replace Mr James McClements who resigned. Subsequent to year end, Mr Francis De Souza resigned as a Non-Executive Director.

Ascot's Strategy

Ascot's vision is to deliver strong, long-term, sustainable shareholder value through the acquisition and development of steelmaking raw material mining ventures in Australia and Colombia.

The Company's mission is to:

- execute the Company's development strategy to commission the Wonmunna project for export of iron ore products
- successfully advance the Titiribi coal project and position the project for future expansion to maximise returns for all stakeholders; and
- seek to acquire strategic interests in other steelmaking raw material projects in Colombia and Australia through new and existing corporate channels.

Due to a deteriorating iron ore price and volatile market conditions generally, in October 2015 the Board of Ascot resolved to limit activity related to the development of the Wonmunna Project until the outlook for the iron price stabilises and improves.

Corporate

FY16 Operating Results

The Company's operating profit after income tax for the year was $437,257 (2015: loss $8,643,471), which resulted in a basic earnings per share of 0.31 cents, compared to 7.72 cents loss per share in the previous corresponding period (pcp). Included in the consolidated profit for the year was the reversal of a prior year share based payment expense of $3,376,168 relating to the cancellation of the Tranche B and C executive incentives.

The consolidated statement of cash flow shows a decrease in cash and equivalents during the year of $2,935,532 compared with an increase of $1,142,174 in the pcp. As at 30 June 2016, the Company has cash and equivalents totalling $219,207.

During FY16, Ascot implemented a series of initiatives to reduce its working capital and corporate overhead costs. In the absence of a marked improvement in global iron ore and coal markets, the Company does not expect its revised corporate structure to materially change.

With respect to both the Titiribi and Wonmunna projects, Ascot will most likely remain in a 'holding pattern' during the 2017 financial year, and therefore expects to incur ongoing losses until such time as either (or both) projects are in production and the Company is earning revenue. Securing project-related financing to ensure development progresses in line with the Company's expected timeframe remains a key risk.

For a detailed discussion of the risks associated with Ascot's future operating and financial performance refer to '*Factors and Business Risks that affect Future Performance*" below.

Asset and Capital Structure

Convertible notes and their maturity dates are as follows:

Loan Note	Principal	Maturity Date
RCF – Note 1	$1,220,000	30 November 2016

Factors and Risks that affect Future Performance

Ascot faces a number of key risks in reaching its stated goals of developing of the Wonmunna Iron Ore and Titiribi Coal projects, which in turn could potentially have a significant effect on future performance and long-term financial viability of the Company.

Capital Markets & Access to Funding

Ascot's ability to successfully develop its current suite of projects, as well as any acquired in future, is largely contingent on the Company's ability to fund these projects through successfully raising debt and/or equity capital. There is no guarantee that Ascot will be able to raise needed funds to continue executing its development strategy in relation to either the Wonmunna or Titiribi projects.

Commodity Prices

Commodity prices remain largely uncertain and their inherent volatility is affected by many factors beyond Ascot's control. Such factors include supply and demand fluctuations in coal and iron ore, forward selling activities, the level of production costs in major commodity-producing regions, and other macro-economic factors. To this end, the Company's assessment of short and long-term coal and iron ore prices will have a significant bearing on:

i. whether the Company will proceed to the construction phase of the Wonmunna or Titiribi projects; and
ii. the subsequent revenue derived from the projects.

Moreover, Ascot's view of pricing may also impact future project acquisitions in the steelmaking raw material space.

Exchange Rates

International prices of various commodities – including iron ore and coal – are denominated in United States dollars, whereas the income and majority of expenditure of Ascot in relation to the Wonmunna and Titiribi projects are, and will be taken into account in Australian currency, exposing Ascot to the fluctuations and volatility of the rate of exchange between the two currencies.

Access to infrastructure and facilities

Access to suitable infrastructure and export facilities, which may include road, rail and port, is critical for Ascot in the development of its projects. In relation to the Wonmunna Project, notwithstanding the proximity of the project to current and potential infrastructure, Ascot's ability to sell iron ore product into global seaborne markets will be contingent on gaining access to suitable export facilities from third parties, on suitable commercial terms.

Infrastructure risk can be significantly reduced by eliminating the need for port access through mine gate sales options. Notably, this will also transfer the responsibility for downstream logistics to the purchasing party(ies). Alternatively, Ascot could also consider the prospect of selling product at port gate, and independently manage the transport aspect of the sales' process.

Mining and Environmental approvals

Ascot will require mining and environmental approvals in order to construct, commission and operate both projects. Any delays to these approvals could impact the Company's ability to meet stated target dates for commissioning and production.

Ascot has secured primary environmental approvals for the Wonmunna Project from the WA Department of Mines and Petroleum (DMP) including a Native Vegetation Clearing Permit and approval of its Mining Proposal and Closure Plan.

In addition, Ascot has submitted applications for environmental (PMA) approvals to Colombia's CorAntioquia.

Native Title Access and Mining Negotiations

In relation to the Wonmunna Project, Ascot has Native Title Mining Agreements with the Ngarlawangga claimant group and the neighbouring Nyiyaparli claimant group to provide a framework for future engagement and compensation to the groups upon the commencement of mining.

Ascot must also comply with Aboriginal heritage legislation which stipulates the requirement for heritage survey work to be undertaken ahead of the commencement of mining operations.

7. FINANCIAL RESULTS

The financial results of the Company for the year ended 30 June 2016 are:

	30-June-16	30-June-15	30-June-14
Cash and Equivalents (A$)	219,707	3,155,239	2,013,066
Net Assets (A$)	20,336,706	23,052,010	2,331,526
Revenue (A$)	18,664	87,540	52,413
Net profit/(loss) after tax (A$)	437,257	(8,643,471)	(4,247,091)
Profit/(loss) per share (A¢)	0.31	(7.72)	(16.72)
Dividend per share (A$)	-	-	-

8. SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There were no significant changes in the state of affairs during the year.

9. AFTER BALANCE SHEET DATE EVENTS

On 22 July 2016, Ascot, Wonmunna Iron Ore Pty Ltd and Ochre Group Holdings Ltd ('Ochre') entered into a Deed amending the Sale and Purchase Agreement for the Wonmunna Project made between those parties on 3 July 2014 ('SPA'). Pursuant to the Deed the parties agreed:

- To amend the 'Additional Consideration' payable to Ochre under the SPA by reference to the average price received for sales of product from the Project over a defined period; and
- That interest would cease to accrue on the Additional Consideration from the date of the amending Deed until the date of the first sale of product from the Wonmunna Project.

On 2nd August 2016, Ascot and RCF agreed that the maturity date under the May 2013 Loan Note would be extended to 30 November 2016.

On 5 August 2016 Ascot entered into an A$250,000 bridge loan facility with RCF V Annex Fund L.P., an associate of cornerstone investor and substantial shareholder, Resource Capital Fund V L.P. (**RCF**). The bridge loan facility is a short term facility provided for a term that expires on 30 November 2016 while Ascot and RCF continue negotiations regarding longer term financing options.

On 31 August 2016 Mr Francis De Souza resigned as a Non-Executive Director of the Company.

On 19 September 2016 Ascot issued a total of 15,450,000 ordinary fully paid shares following the exercise of a corresponding number of Wonmunna Executive Incentives and Employee Incentives by the incentive holders.

On 21 September 2016, the Ascot Board approved the terms of a new A$3m convertible loan note offered by RCF V Annex Fund L.P. ('RCFVAF"). The offer of funding by RCFVAF is subject to satisfaction of certain conditions precedent including approval by the lender's Investment Committee, execution of binding documentation and Ascot shareholder approval.

10. FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

The Directors will continue to evaluate new resource opportunities as they are identified by, or presented to, the Company. Further information in respect to these opportunities and other developments affecting the Company will be made available to the market in accordance with the Company's continuous disclosure obligations under the Corporations Act.

11. ENVIRONMENTAL ISSUES

In June 2016 the Company received notices from the Department of Mined and Petroleum ('DMP') requiring the Company to undertake rehabilitation works on the Wonmunna Project tenements including filling and or / capping drill holes, rehabilitating tracks that are no longer required, spreading drill spoil and clearing rubbish. The Company developed a scope works for endorsement by DMP and as at the date of this report has partially completed the agreed rehabilitation work. The Company was not subject to any significant environmental regulations under either Commonwealth or State legislation.

Other than as noted above, the Board is not aware of any breach of environmental requirements as they apply to the Company. There were no ground disturbing activities conducted in Australia during the financial year.

12. OPTIONS

As the date of this report, the unissued ordinary shares of Ascot under option are as follows:

Date of Expiry	Exercise Price[1]	Number Under Option[1]
28/11/2016	$0.20	3,136,335

Notes: Both the exercise price and number under option are on a post-consolidation basis.

No person entitled to exercise these options had or has any right by virtue of the option to participate in any share issue of any other related body corporate.

13. PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purposes of taking responsibility on behalf of the Company for all or part of those proceedings.

14. INDEMNIFYING OFFICERS

During the financial year, the Company paid a premium in respect of a contract insuring all its Directors and current and former executive officers against a liability incurred as such a director or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium. The Company has not otherwise, during or since the financial year, indemnified or agreed to indemnify an officer or auditor of the Company against a liability incurred as such an officer or auditor.

15. NON-AUDIT SERVICES

The Board of Directors advises that there were no non-audit services provided by the Company auditors during the financial year.

16. REMUNERATION REPORT (Audited)

The remuneration report outlines the remuneration arrangements in place for Directors and key management personnel of the Company in accordance with the requirements of the Corporations Act 2001 and its Regulations. The information in this report has been audited as required under section 308(3C) of the Corporations Act 2001.

For the purpose of this report, key management personnel of the Company are those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any Directors of the Company. The Directors and key management personnel whose remuneration arrangements are detailed in this report are as follows:

Paul Kopejtka	Non-Executive Chairman
Andrew Caruso	Non -Executive Director
Chris Corbett	Non-Executive Director
Shahb Richyal	Non-Executive Director
Nathan Featherby	Non-Executive Director
Francis DeSouza	Non-Executive Director
Mike Young	Non-Executive Director

Remuneration Philosophy

Due to the size and scale of the Company's operations and the number of Directors, the Board has not established a separate committee to oversee the Company's remuneration policies for key management personnel. This role has instead been performed by the full Board.

Key management personnel have authority and responsibility for planning, directing and controlling the activities of the Company. The performance of the Company therefore depends upon the quality of its key management personnel. To prosper the Company must attract, motivate and retain appropriately skilled Directors and Executives.

The Company's broad remuneration policy is to ensure that remuneration packages properly reflect the duties and responsibilities of the relevant person and that remuneration is competitive in attracting, retaining and motivating people of the highest quality.

During the financial year the Board did not engage the services of a remuneration consultant to provide recommendations on remuneration for key management personnel.

Remuneration Structure

The Company has adopted best practice structures under which remuneration of Non-Executive Directors and Executives is separate and distinct.

Non-Executive Director Remuneration
Objective

The Board seeks to set the aggregate remuneration at a level which provides the Company with the flexibility to attract and retain Directors with skills that are relevant to the needs of the Company, whilst incurring a cost which is acceptable to Shareholders.

Structure and Approvals

The Company's Constitution and the ASX listing rules specify that the aggregate remuneration of Non-Executive Directors shall be determined from time to time by a general meeting of shareholders. The latest determination was at the 2011 Annual General Meeting held on 18 November 2011 at which shareholders approved an aggregate remuneration of $300,000 per year (in accordance with the terms and conditions set out in the Explanatory Statement that accompanied the Notice of Meeting). The Board will not seek any increase for the Non-Executive Directors pool at the 2016 Annual General Meeting.

Remuneration of Non-Executive Directors is based on fees approved by the Board of Directors and is set at levels to reflect market conditions and encourage the continued services of the Directors. The nature and amount of remuneration is collectively considered by the Board of Directors with reference to fees commensurate to a company of similar size and level of activity, with the overall objective of ensuring maximum stakeholder benefit from the retention of high performing Directors.

Further details relating to remuneration of Non-Executive Directors are contained in the Remuneration Table disclosed in this Report and within the Notes to the Financial Statements: Note 17 Reserves, Note 20 Share-Based Payments and Note 22 Key Management Personnel Disclosures.

Executive Remuneration

Objective

The Company aims to reward Executives having regard to the performance of the Company, the performance of the Executive and prevailing remuneration expectations in the market.

Executive remuneration and incentive policies and practices must be aligned with the Company's vision, values and overall business objectives. Executive remuneration and incentive policies and practices must be designed to motivate management to pursue the Company's long term growth and success and demonstrate a clear relationship between the Company's overall performance and the performance of executives.

The main objectives sought when reviewing Executive remuneration is that the Company has:

- coherent remuneration policies and practices to attract and retain Executives;
- Executives who will create value for shareholders;
- competitive remuneration benchmarked against the external market; and
- fair and responsible rewards to Executives having regard to the performance of the Company, the performance of the Executives and the general pay environment.

Further details relating to remuneration of Executives are contained in the Remuneration Table disclosed in this Report and within the Notes to the Financial Statements: Note 22 Key Management Personnel Disclosures.

Structure and Approvals
Fixed Remuneration

The components of the Executives' fixed remuneration are determined individually and may include:

- cash remuneration;
- superannuation;
- motor vehicle, parking and other benefits; and
- reimbursement of home office and telephone expenses.

Fixed remuneration of Executives is reviewed annually by the Board.

Variable Remuneration

Executives may receive variable remuneration in the form of an annual performance bonus of up to an agreed percentage of fixed remuneration (STI). No STI payment was made in the 2016 financial year.

It is anticipated that in future financial years, the payment of the STI will be linked to achievement of pre-agreed milestones set by the Board.

Wonmunna Executive Incentives

On 23 May 2014 a General Meeting of Shareholders of the Company approved the grant of 50,000,000 Executive Incentives to Paul Kopejtka and Andrew Caruso in three tranches, A, B and C.

- The Executive Incentives are issued for no consideration. For the avoidance of doubt, the Executive Incentives are not issued under the Company's Employee Incentive Plan, but certain rules of the Plan may apply to the Executive Incentives as if they had been issued under the Plan.
- Subject to these Executive Incentive Terms, each Executive Incentive entitles the holder to subscribe for and be allotted one Share on exercise of the Executive Incentive.
- There is no exercise price payable upon exercise of each Executive Incentive.

On 3 February 2016, the Ascot Board resolved to cancel Tranches B and C of the Wonmunna Executive Incentives. The market price of the underlying equity instruments at the date of cancellation was $0.18.

Tranche A of the Executive Incentives are subject to the following vesting conditions:

The Company receiving:

- *written approval from the DMP to commence mining under the Mining Act*
- *any other statutory and environmental approvals, permits or licences as required by other Government agencies before mining should begin.*

In August 2015 the Board determined that the vesting conditions applicable to the Tranche A executive incentives would be satisfied on receipt by the Company of written approval from the DMP for a Surface Water Management Plan for the Wonmunna Project. That written approval was received on 2 November 2015. Subsequent to year end all Tranche A Executive incentives were exercised resulting in the issue of 15 million ordinary fully paid shares.

Employee Incentive Plan

During the 2013 financial year, the Company established the Ascot Resources Limited Employee Incentive Plan (Incentive Plan) which provides the Company with the flexibility to issue Incentives in the form of either options or performance rights which may ultimately vest into Shares. In contrast to an option, a performance right does not have an exercise price and therefore allows an employee to benefit by exercising their performance right upon satisfaction of applicable vesting conditions without needing to provide any cash consideration. The inclusion of the flexibility to grant performance rights under employee incentive plans is a current trend amongst the Company's ASX-listed peer group.

The Incentive Plan forms an important part of the Company's remuneration strategy and is specifically aimed at driving long term performance for shareholders, a culture of employee share ownership and retention of executives, employees and staff. A total of 2,560,000 incentives were issued under the Executive Incentive plan during the year ending 30 June 2015. A total of 1,060,000 incentives were exercised in February 2016 and a further 450,000 incentives were exercised subsequent to year end.

Remuneration of Key Management Personnel for the year ended 30 June 2016

Details of the nature and each element of the emoluments of each Director and key management personnel of the Company for the years ended 30 June 2016 and 2015 are set out in the following tables.

	Short-term employee benefits				Post-employment benefits	Share-based payments		Percentage of remuneration consisting of incentives for the year
30-Jun-16	**Salary & fees $**	**Terminatio n Benefits $**	**Non-monetary $**	**Other $**	**Super-annuation $**	**Executive incentives $**	**Total $**	
Directors								
Mr Kopejtka (i)	158,333	144,753	3,192	-	13,854	436,582	756,714	58%
Mr Caruso (i)	201,963	183,049	3,192	-	17,999	65,236	471,439	14%
Mr DeSouza	23,325		-	-	-	-	23,325	0%
Mr Corbett	-		-	-	-	-	-	-

Other Transactions with KMP and/or their Related Parties

Hampshire Mining Pty Ltd

Hampshire Mining is a director- related entity of Mr Paul Kopejtka. During the financial year Ascot paid Hampshire Mining $37,833.70 (ex GST) for the 50% reimbursement of the recruitment fee associated with the appointment of the General Manager in Colombia paid by Hampshire Mining in 2013.

As part of the purchase by the Company of Carb Uraba SAS, Hampshire Mining was paid $30,000 under a deed of release relating to the Binding Heads of Agreement dated 5 September 2013 associated with the share purchase of Carbones del Golfo S.A.

Otsana Capital Pty Ltd

Otsana Capital is a director-related entity of Mr Francis DeSouza. During the financial year Ascot paid Otsana Capital Nil (2015:$102,526 (ex GST)) for consulting services in line with the agreement entered into in February 2015 to provide investor relations consultancy services to the Company. The Company agreed to pay Otsana for consultancy services at a rate of $14,367 per month. The agreement ended on 30 September 2015.

Baga River Pty Ltd

Baga River is a director-related entity of Mr Francis DeSouza. During the financial year Ascot paid Baga River $23,405 (ex GST) relating to ad-hoc consulting services provided by Mr DeSouza.

There were no other transactions conducted between the Group and KMP or their related parties, apart from those disclosed above relating to equity, compensation and loans, that were conducted other than in accordance with normal employee, customer or supplier relationships on terms no more favourable than those reasonably expected under arm's length dealings with unrelated persons.

Adoption of Remuneration Report by Shareholders

The adoption of the Remuneration Report for the financial year ended 30 June 2015 was put to the shareholders of the Company at the Annual General Meeting of the Company held on 13 November 2015. All proxies received were in favour of the resolution and the resolution was passed without amendment on a show of hands. The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

End of Remuneration Report

17. AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration for the financial year ended 30 June 2016 has been received and can be found on page 53 of the financial report.

Signed in accordance with a resolution of the Board of Directors.

Paul Kopejtka
Non-Executive Chairman
Perth, Western Australia
21 September 2016

1 REPORTING ENTITY

The Company is a for profit entity. The address of its registered office and principal place of business is disclosed in the Corporate Directory of the annual report. The financial statement of the Company and its controlled entities is for the financial year ended 30 June 2016.

The nature of the operations and principal activities of the Company and its controlled entities are described in the Directors' Report.

2 BASIS OF PREPARATION

a) Statement of compliance

The financial report is a general purpose consolidated financial report which has been prepared in accordance with Australian Accounting Standards (AASBs) (including Australian Interpretations) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The financial report of the Group also complies with International Financial Reporting Standards (IFRSs) and interpretations adopted by the International Accounting Standards Board.

The consolidated financial statements were approved by the Board of Directors on 21 September 2016.

b) Basis of measurement

The financial statements have been prepared on the historical cost basis. Cost is based on the fair values of the consideration given in exchange for assets.

c) Functional and presentation currency

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

d) Comparatives

Prior period comparatives are for the period from 1 July 2014 to 30 June 2015.

e) New and amended standards adopted by the Company

None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 July 2015 affected any of the amounts recognised in the current period or any prior period and are not likely to affect future periods.

f) Early adoption of standards

The Company has not elected to apply any pronouncements before their operative date in the annual reporting period beginning 1 July 2015. For further information refer to Note 4.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently in these financial statements.

a) Going concern

The Directors have reviewed the business outlook and cash flow forecasts and are of the opinion that the use of the going concern basis of accounting is appropriate as the Directors believe the Group will be able to pay its debts as and when they fall due.

The financial statements are normally prepared on the assumption that the Group is a going concern and will continue in operation for the foreseeable future. Hence, it is assumed that the Group has neither the intention nor the need to liquidate or curtail materially the scale of its operations; if such an intention or need exists, the financial statements may have to be prepared on a different basis, and, if so, the basis used is disclosed.

The Statement of Comprehensive Income shows the Company incurred a net profit of $437,257 during the year ended 30 June 2016. The Statement of Financial Position as at 30 June 2016 shows that the Company had cash and cash equivalents of $219,707 and a net current liability position of $3,020,776 (2015: net current assets $1,021,242).

The Company's ability to continue as a going concern and pay its debts as and when they fall due is dependent upon the following:

- The Company keeping the administrative costs to a minimum through careful cost management, which includes only two Non-Executive Directors earning director fees.

- The Company raising additional capital via any means available to it inclusive of, but not limited to, placements, option conversions, rights issues, or joint venture arrangement in a timely manner in order to fund the ongoing exploration and operation activities;

The Board has reviewed the Company's financial position and forecast cash flows and has assessed that the Company will be required to raise additional funds by way of issuing equity or other alternative funding arrangements. Currently discussions are being held with RCF V Annex Fund L.P. ('RCF') with regards to the provision of further funds. The expectation of the Board is to raise funds through issue of a new A$3m convertible loan note to RCF.

The directors reasonably expect that the Company will be able to raise additional funds as noted above to meet future costs associated with its operating and exploration activities for at least the next 12 months. The directors are therefore of the opinion that the use of the going concern basis is appropriate in the circumstances.

Should the Company not be successful in obtaining adequate funding, there is material uncertainty as to the ability of the Company to continue as a going concern and it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business and at amounts different to those stated in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount of liabilities that might result should the group be unable to continue as a going concern and meet its debts as and when they fall due.

b) Principles of consolidation

The consolidated financial statements are those of the consolidated entity, comprising the financial statements of the parent entity and of all entities which the parent entity controls. The group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies, which may exist.

A list of controlled entities is contained in Note 21(b).

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the financial report as well as their results for the period then ended.

Intragroup balances and any unrealised gains and losses or income and expenses arising from intragroup transactions are eliminated in preparing the consolidated financial statements. Subsidiaries are eliminated from the date on which control is established and are de-recognised from the date that control ceases.

Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

c) Revenue recognition

Interest revenue
Revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Rental income
Rental income is recognised on a straight line basis over the term of the lease. Rental income is recognised as other income.

d) Income tax

Deferred income tax is provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences:

- Except where the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and

- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and deferred tax liabilities shall be offset only if:

a) there is a legally enforceable right to set-off current tax assets against current tax liabilities; and
b) the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
    (i) the same taxable entity; or
    (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantially enacted at the balance sheet date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the Statement of Comprehensive Income.

e) Other taxes

Revenues, expenses, assets and liabilities are recognised net of the amount of GST except where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and receivables and payables are stated with amounts of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position. Commitments or contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

f) Business Combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interests in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the group's share of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement or any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions. Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently measured to fair value with changes in fair value recognised in profit or loss.

g) Asset acquisition

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned a carrying amount based on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities, as the initial recognition exemption for deferred tax under AASB 112 applies. No goodwill will arise on the acquisition.

h) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the Statement of Financial Position.

i) Plant and equipment

(i) Owned assets
Items of plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a work condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components).

(ii) Subsequent costs
The Company recognises in the carrying amount of an item of plant and equipment the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefits embodied within the item will flow to the Company and the cost of the item can be measured reliably. All other costs are recognised in the Statement of Comprehensive Income as an expense as incurred.

(iii) Depreciation
Depreciation is charged to the Statement of Comprehensive Income using a straight line method over the estimated useful lives of each part of an item of plant and equipment.

The estimated useful lives in the current financial year are as follows:

- Plant and equipment: 3 years

The residual value, the useful life and the depreciation method applied to an asset are reassessed at least annually.

j) Exploration and evaluation

Exploration and evaluation expenditures in relation to each separate area of interest are recognised as an exploration and evaluation asset in the year in which they are incurred where the following conditions are satisfied:

(i) The rights to tenure of the area of interest are current; and
(ii) At least one of the following conditions is also met:
  a) The exploration and evaluation expenditures are expected to be recouped through successful development and exploration of the area of interest, or alternatively, by its sale; or
  b) Exploration and evaluation activities in the area of interest have not, at the reporting date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest is continuing.

Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities and an allocation of depreciation and amortisation of assets used in exploration and evaluation activities. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (or the cash-generating unit(s) to which it has been allocated, being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years. Where a decision is made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then classified to development.

k) Trade and other payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Company prior to the end of the financial year that are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services.

l) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

m) Earnings per share

(i) Basic earnings per share
Basic earnings per share is determined by dividing net profit or loss after income tax attributable to members of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share
Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

n) Investments and other financial assets

Classification

The Company classifies its financial assets in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluates this designation at the end of each reporting date.

(i) Financial assets at fair value through profit or loss
Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if they are expected to be settled within 12 months; otherwise they are classified as non-current.

(ii) Loans and receivables
Loans and receivable are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting period which are classified as non-current assets. Loans and receivables are included in trade and other receivables (note 10) in the Statement of Financial Position.

(iii) Held-to-maturity investments
Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company's management has the positive intention and ability to hold to maturity. If the Company were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale. Held-to-maturity financial assets are included in non-current assets, except for those with maturities less than 12 months from the end of the reporting period, which are classified as current assets.

(iv) Available-for-sale financial assets
Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

Financial Assets – reclassification

The Company may choose to reclassify a non-derivative trading financial asset out of the held for trading category if the financial asset is no longer held for the purpose of selling it in the near term. Financial assets other than loans and receivables are permitted to be reclassified out of the held for trading category only in rare circumstances arising from a single event that is unusual and highly unlikely to recur in the near term. In addition, the Company may choose to reclassify financial assets that would meet the definition of loans and receivables out of the held for trading or available-for-sale categories if the Company has the intention and ability to hold these financial assets for the foreseeable future or until maturity at the date of reclassification.

Reclassifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortised cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date are subsequently made. Effective interest rates for financial assets reclassified to loans and receivables and held-to-maturity categories are determined at the reclassification date. Further increases in estimates of cash flows adjust effective interest rates prospectively.

Recognition and de-recognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to profit or loss as gains and losses from investment securities.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Loans and receivable and held-to-maturity investments are subsequently carried at amortised cost using the effective interest method.

Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in profit or loss within other income or other expense in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in profit or loss as part of revenue from continuing operations when the Company's right to receive payments is established. Interest income from these financial assets is included in the net gains/(losses).

Changes in the fair value of monetary securities denominated in a foreign currency and classified as available-for-sale are analysed between translation differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. The translation differences related to changes in the amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income. Changes in the fair value of other monetary and non-monetary securities classified as available-for-sale are recognised in other comprehensive income.

Details on how the fair value of financial instruments is determined are disclosed in note 19 Financial Risk Management.

Impairment

The Company assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered an indicator that the assets are impaired.

(i) Assets carried at amortised cost
For loans and receivables, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in profit or loss. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Company may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in profit or loss.

ii) Assets classified as available-for-sale
If there is objective evidence of impairment for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in profit or loss.

Impairment losses on equity instruments that were recognised in profit or loss are not reversed through profit or loss in a subsequent period.

If the fair value of a debt instrument classified as available-for-sale increases in subsequent period and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss.

o) Foreign currency translations and balances

Functional and presentation currency

The financial statements of each entity within the consolidated entity are measured using the currency of the primary economic environment in which that entity operates (the functional currency). The consolidated financial statements are presented in Australian dollars which is the consolidated entity's functional and presentation currency.

Transactions and balances

Transactions in foreign currencies of entities within the consolidated group are translated into functional currency at the rate of exchange ruling at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are translated using the spot rate at the end of the financial year.

Except for certain foreign currency hedges, all resulting exchange differences arising on settlement or re-statement are recognised as revenues and expenses for the financial year.

Entities that have a functional currency different to the presentation currency are translated as follows:

- Assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- Income and expenses are translated at actual exchange rates or average exchange rates for the period where appropriate; and
- All resulting exchange differences are recognised as a separate component of equity.

p) Share-based payments

The Company provides benefits to employees (including directors) of the Company in the form of share-based payment transactions, whereby employees render services in exchange for shares or options over shares ("equity-settled transactions").

The fair value of options is recognised as an expense with a corresponding increase in equity (share option reserve). The fair value is measured at grant date and recognised over the period during which the holder become unconditionally entitled to the options. Fair value is determined using a Black-Scholes option pricing model. In determining fair value, no account is taken of any performance conditions other than those related to the share price of the Company ("market conditions"). The cumulative expense recognised between grant date and vesting date is adjusted to reflect the directors' best estimate of the number of options that will ultimately vest because of internal conditions of the options, such as the employees having to remain with the company until vesting date, or such that employees are required to meet internal sales targets. No expense is recognised for options that do not ultimately vest because internal conditions were not met. An expense is still recognised for options that do not ultimately vest because a market condition was not met.

Where the terms of options are modified, the expense continues to be recognised from grant date to vesting date as if the terms had never been changed. In addition, at the date of the modification, a further expense is recognised for any increase in fair value of the transaction as a result of the change.

Where options are cancelled, they are treated as if vesting occurred on cancellation and any unrecognised expenses are taken immediately to the Statement of Comprehensive Income. However, if new options are substituted for the cancelled options and designated as a replacement on grant date, the combined impact of the cancellation and replacement options are treated as if they were a modification.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the Company obtains the goods or the counterparty renders the service.

q) Critical accounting estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the following notes:

(i) Exploration & Evaluation Expenditure (refer Note 13)
The Company's accounting policy for exploration and evaluation is set out in note 3(j) above. If, after having capitalised expenditure under this policy, the Directors conclude that the Company is unlikely to recover the expenditure by future exploration or sale, then the relevant capitalised amount will be written off to the Statement of Comprehensive Income.

(ii) Share-Based Payments (refer Note 20)
The Company measures the cost of equity settled share based payments at fair value at the grant date using the Black-Scholes model taking into account the exercise price, the term of the option, the impact of dilution, the share price at grant date, the expected volatility of the underlying share, the expected dividend yield and risk free interest rate for the term of the option.

(iii) Deferred Consideration (refer Note 14)
Deferred consideration forms part of the Wonmunna iron ore project acquisition with Ochre Group Holdings Ltd and is revalued each reporting period using net present value method based on the expected date of the first shipment of ore as it is believed to be an approximation of its fair value..

4 STANDARDS ISSUED BUT NOT YET EFFECTIVE

The AASB has issued new standards, amendments and interpretations to existing standards which have been published but are not yet effective, and have not been adopted early by the Company. The new standards, amendments and interpretations that are expected to be relevant to the Company's financial statements are provided below:

Standard/Interpretation	Effective for annual reporting periods beginning on or after
AASB 9 Financial Instruments AASB 9 introduces new requirements for the classification and measurement of financial assets and liabilities. These requirements improve and simplify the approach for classification and measurement of financial assets	1 January 2018
AASB 15 Revenue from Contracts with Customers AASB 15: - establishes a new revenue recognition model - changes the basis for deciding whether revenue is to be recognised over time or at a point in time - provides new and more detailed guidance on specific topics - expands and improves disclosures about revenue.	1 January 2017
AASB 16 Leases AASB 16 will replace AASB 117: Leases and introduces a single lessee accounting model that will require a lessee to recognise right-of-use	1 January 2019

assets and lease liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Right-of-use assets are initially measured at their cost and lease liabilities are initially measured on a present value basis.	

The abovementioned new standards and interpretations are not expected to have a material impact on the Company's financial statements.

5 SEGMENT INFORMATION

OPERATING SEGMENTS

The AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The segments are consistent with the internal management reporting information that is regularly reviewed by the chief operating decision maker.

The Company engages in the business of iron ore and coal exploration and evaluation in Australia and Colombia respectively and management identifies its operating segments based on geographical location. The Company's two operating segments are:

1. Colombia – Prospective coal permits; and
2. Australia – Prospective iron ore permits

The revenues and loss generated by each of the Company's operating segments and segment assets are summarised as follows:

Twelve (12) months to 30 June 2016	**Colombia**	**Australia**	**Total**
	$	$	$
Revenue	-	18,644	18,644
Segment operating profit/(loss)	-	437,257	437,257
Segment Assets	6,155,171	30,738,226	36,893,397
Segment Liabilities	-	16,556,691	16,556,691

The Company's segment operating profit reconciles to the Company's profit before tax as presented in its financial statements as follows:

	30-Jun-16	30-Jun-15
Revenue	**18,664**	87,540
Directors fees and other benefits	**(40,452)**	(18,000)
Share-based payments	**3,376,168**	(5,591,239)
Professional & consulting fees	**(127,310)**	(240,946)
Employment expense	**(1,054,343)**	(1,113,963)
Other expenses	**(1,735,470)**	(1,766,863)
Total operating profit	**437,257**	(8,643,471)

6. REVENUE AND OTHER INCOME

Revenue		
Interest income	**18,664**	87,540
Total revenue and other income	**18,664**	87,540

7. OTHER EXPENSES

	30-Jun-16	30-Jun-15
Expenses		
Depreciation expenses	**11,090**	18,487
Administration costs	**214,957**	358,554
Travel expenses	**17,127**	23,722
Compliance and regulatory expenses	**28,745**	86,341
Exchange loss	**31,410**	23,801
Interest	**1,432,141**	1,255,958
Total expenses	**1,735,470**	1,766,863

8. INCOME TAX EXPENSES

(a) Income tax expense

The components of income tax expense/(benefit) comprise:		
Current tax	**-**	-
Deferred tax	**-**	-

(b) Reconciliation of income tax expense/(benefit) to prima facie tax payable on accounting profit/(loss)

Accounting profit/(loss) before tax	**437,257**	(8,643,471)
Prima facie tax payable/(benefit) at Australian rate of 28.5% (2015: 30%)	**124,618**	(2,591,270)
Prima facie tax payable/(benefit) at Spanish rate of 25% (2015: 28%)	**-**	(1,771)
Adjusted for tax effect of the following amounts:		
Non-deductible/taxable items	**(634,999)**	1,863,939
Tax benefits not brought to account	**510,381**	729,102
Income tax expense/(benefit)	**-**	-

(c) Deferred tax assets and liabilities not brought to account

The directors estimate that the potential deferred tax assets and liabilities carried forward but not brought to account at year end at the Australian corporate tax rate of 30% are made up as follows:

On income tax account:		
Carried forward tax losses	**4,004,418**	3,923,667
Deductible temporary differences	**3,957,220**	502,189
Taxable temporary differences	**(5,597,095)**	(2,670,516)
	2,364,543	1,755,340

The Company estimates it has accumulated income tax losses of $4,004,418 (2015: $3,923,667). The benefit of these losses and timing difference will only be obtained if:

- The Company derives future assessable income of a nature and an amount sufficient to enable the benefit from the deductions for the loss to be realised;
- The Company continues to comply with the conditions for deductibility imposed by law; and
- No changes in tax legislation adversely affect the Company in realising the benefit from the deduction for the loss.

9. CASH & CASH EQUIVALENTS

	30-Jun-16 $	30-Jun-15 $
Cash at bank and in hand	**169,707**	3,105,239
Short-term deposit	**50,000**	50,000
	219,707	3,155,239

Reconciliation of net profit/(loss) after income tax to net cash flows from/(used in) operating activities

Net profit/(loss) after income tax	**437,257**	(8,643,471)
Adjustments for:		
Depreciation	**11,090**	18,487
Share-based payments (Refer Note 20)	**(3,376,168)**	5,591,239
Net foreign exchange differences	**12,296**	(14,735)
Interest paid in shares	**-**	323,435
Other items paid in shares	**-**	34,156
Capitalised Interest	**1,431,219**	908,786
Change in assets and liabilities		
(Increase)/decrease in trade & other receivables	**(3,937)**	14,916
(Increase)/decrease in other assets	**(255,681)**	(3,588)
Increase/(decrease) in trade & other payables	**(71,149)**	(1,841,722)
Increase/(decrease) in provisions	**-**	28,773
Net cash flows used in operating activities	**(1,815,073)**	(3,583,724)

10. TRADE & OTHER RECEIVABLES

	30-Jun-16 $	30-Jun-15 $
Other receivables	**3,937**	-
	3,937	-

(a) Trade receivables past due but not impaired
There were no trade receivables past due but not impaired.

(b) Fair value and credit risk
Due to the short-term nature of these receivables, their carrying amount is assumed to approximate their fair value. The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivables mentioned above. Refer to note 19 for more information on the risk management policy of the Company and the credit quality of the Company's trade receivables.

11. OTHER ASSETS

	30-Jun-16	30-Jun-15
	$	$
Deposits	**69,087**	-
Prepayments	**19,194**	68,362
	88,281	68,362

12. PLANT & EQUIPMENT

Office Equipment		
At cost	65,447	65,447
Accumulated depreciation	(49,467)	(39,374)
Total office equipment	15,980	26,073
Fixtures & Fittings		
At cost	10,466	10,466
Accumulated depreciation	(3,095)	(2,098)
Total Fixtures & Fittings	7,371	8,368

	Office Equipment	Fixtures & Fittings	Total
	$	**$**	**$**
2016			
Balance at the beginning of the year	**26,073**	**8,368**	**34,441**

Depreciation expense	**(10,093)**	**(1,997)**	**(11,090)**
Carrying amount at the end of the year	**15,980**	**7,371**	**23,351**

	Office Equipment	Fixtures & Fittings	Total
2015	$	$	$
Balance at the beginning of the year	44,175	12,615	56,790
Additions/disposals	(620)	(3,242)	(3,862)
Depreciation expense	(17,482)	(1,005)	(18,487)
Carrying amount at the end of the year	26,073	8,368	34,441

13. EXPLORATION & EVALUATION EXPENDITURE

	30-Jun-16	30-Jun-15
	$	**$**
Carrying amount of exploration & evaluation expenditure	**38,940,993**	38,389,097
Movement during the year		
Balance at the beginning of the year	**38,389,097**	5,317,387
Additions	**833,738**	33,071,710
Revaluation of deferred consideration payable	**(2,664,714)**	-
Carrying amount at the end of the year	**36,558,121**	38,389,097

14. TRADE & OTHER PAYABLES

Current

	30-Jun-16	30-Jun-15
	$	$
Trade and sundry creditors (a)	**431,009**	483,829
Accruals (b)	**20,000**	-
	451,009	483,829
Other Payables		
Stamp duty payable	**1,650,000**	-

a) Trade and sundry creditors are non-interest bearing and are predominantly settled on 30-day terms.
b) Accruals are non-interest bearing and are predominantly settled on 30-day terms.

Non-Current

Stamp Duty Accrual	**-**	1,700,000
Deferred Consideration (i)	**11,040,739**	13,705,453
Accrued Interest	**2,157,166**	908,786
Total	**13,197,905**	16,314,239

(i) Deferred consideration forms part of the Wonmunna iron ore project acquisition with Ochre Group Holdings. Under a Sale and Purchase Agreement signed 3 July 2015 Ascot Resources owes Ochre Group Holdings an amount of $19.95m payable 5 years from the first shipment of ore. Interest is accrued on a semi-annual basis at 5.88% (capitalised until the Standstill date per the Second Deed of Amendment and Restatement being 22 July 2016). No further interest will be accrued from the Standstill date until the date of first sale.

Deferred consideration is revalued each reporting period using net present value method which is believed to be an approximation of its fair value.

15. INTEREST BEARING LOANS & BORROWINGS

Current

Loan Note – RCF (a)	**1,220,021**	1,219,609
Loan Note – Sedgman Ltd (b)	**-**	498,921
	1,220,021	1,718,530

(a) RCF Loan Note

In May 2013, the Company entered into a loan note agreement with Resource Capital Fund V L.P ('RCF') for the issue of a 2-year unsecured loan note raising A$1,22m ('May 2013 Loan Note'). The May 2013 Loan Note is convertible at RCF's election into ordinary fully paid shares in the Company at a conversion price of A$0.36 per share. The maturity date for the May 2013 Loan Note has been extended to 30 November 2016.

The May 2013 Loan Note carries a coupon rate of 14% per annum, payable quarterly in arrears. At the Company's election, coupons can be paid in the form of Ascot Resources Ltd shares, cash or a combination of shares and cash, with any shares issued being priced at a 5% discount to prevailing market prices.

A General Meeting of Ascot shareholders held on 4 July 2013, approved the issue of shares to RCF on conversion of the May 2013 Loan Note.

(b) Sedgman Loan Note

In August 2013, the Company entered into a loan note agreement with Sedgman Ltd for the issue of a 2 year unsecured loan note raising A$500,000. The Note was repaid in full by Ascot in August 2015.

16. CONTRIBUTED EQUITY

Share Capital

	30-Jun-16		30-Jun-15

Fully paid ordinary shares	**32,759,730**	**141,797,132**	32,381,079	137,588,776

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

At shareholders meetings, each ordinary share is entitled to one vote per share when a poll is called, otherwise each shareholder has one vote on a show of hands.

At 30 June 2016 there were 141,797,132 fully paid ordinary shares on issue. There are no preference shares on issue.

Movement in ordinary shares on issue	**$**	**No.**	**Issue price per ordinary share**

(a) Issued under the terms of the Loan Note Agreement between the Company and RCF as payment of interest for the June 2015 quarter.
(b) Issued under the terms of the Loan Note Agreement between the Company and SDM as payment of interest for the June 2015 quarter.
(c) Issued under the terms of the Loan Note Agreement between the Company and SDM as payment of interest for the period 1 July 2015 to 26 August 2015.
(d) Issued under the terms of the Loan Note Agreement between the Company and RCF as payment of interest for the September 2015 quarter.
(e) Unmarketable parcels buy back.
(f) Issued under the terms of the Loan Note Agreement between the Company and RCF as payment of interest for the December 2015 quarter.
(g) Wonmunna Executive performance shares exercised.

(h) Issued under the terms of the Loan Note Agreement between the Company and RCF as payment of interest for the March 2016 quarter.
(i) Issued under the terms of the Loan Note Agreement between the Company and RCF as payment of interest for the June 2016 quarter.

Options

As at 30 June 2016, the following options over unissued ordinary shares were on issue:

	No.	Grant Date	Issued Date	Expiry Date	Exercise Price
<u>Unlisted Options</u>					
Pursuit Capital Options (i)	3,136,335	28/11/2013	28/11/2013	28/11/2016	$0.20
	3,136,335				

(i) Options issued as part of the fee associated with the capital raising performed by Pursuit Capital.

17. RESERVES

	30-Jun-16	30-Jun-15
	$	$
Balance at the beginning of the year	**6,925,676**	1,575,875
Equity-settled share based payment transactions (i)	**(3,535,168)**	5,398,961
Foreign Currency Translation Reserve (ii)	**3,956**	(49,160)
Balance at 30 June	**3,394,464**	6,925,676

(i) For further details on share-based payments as recorded within the Equity – settled share based payment reserve, refer to Note 20 Share-Based Payments. Equity-settled share based payment reserve comprises the fair value of options and performance share rights recognised as an expense. Upon exercise of options or performance share rights, any proceeds received are credited to share capital. The share-based payment reserve remains as a separate component of equity.
(ii) Foreign Currency Translation reserve records exchange differences arising on translation of the assets and liabilities of overseas branches and subsidiaries are reflected in the foreign currency translation reserve.

18. EARNINGS PER SHARE

The calculation of basic earnings/loss per share was based on the profit attributable to ordinary shareholders of $437,257 (2015: $8,643,471 loss) and a weighted average number of ordinary shares outstanding during the financial year ended 30 June 2016 of 140,138,244 (2015: 112,022,899) calculated as follows:

a) Basic earnings/(loss) per share

	30-Jun-16	30-Jun-15
Net profit/(loss) attributable to the ordinary equity holders of the Company ($)	**437,257**	(8,643,471)
Weighted average number of ordinary shares for basis per share (No.)	**140,138,244**	112,022,899
Continuing operations		
- Basic profit/(loss) per share (cents)	**0.31**	(7.72)

b) Diluted profit/(loss) loss per share
Potential ordinary shares are not considered dilutive, thus diluted loss per share is the same as basic loss per share.

19. FINANCIAL RISK MANAGEMENT

At the reporting date, the Company holds the following financial instruments by category:

	30-Jun-16	30-Jun-15
	$	$
Financial assets		
Cash & cash equivalents	**219,707**	3,155,239
Trade & other receivables	**3,937**	-
Other assets - deposits	**69,087**	-
	292,731	3,155,239
Financial liabilities		
Trade & other payables	**431,010**	483,829
Interest bearing loans & borrowings	**1,220,021**	1,718,530
Other – stamp duty payable	**1,650,000**	-
Deferred consideration	**11,040,739**	13,705,453
Accrued interest	**2,157,166**	908,780
	16,498,936	16,816,592

Financial risk management

The main risks arising from the Company's financial instruments are market risk (including equity price risk and interest rate risk), credit risk and liquidity risk. The Company uses different methods to measure and manage different types of risks to which it is exposed. Primary responsibility for identification and control of financial risks rests with the Board of Directors.

a) Capital management

The Company's capital includes share capital, reserves and accumulated losses. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to achieve this, the Company may issue new shares in order to meet its financial obligations. There are no externally imposed capital requirements.

Share based payments are used to service debt commitments.

b) Equity price risk

Equity price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments in the market. Equity price risk is minimised through ensuring that investment activities are undertaken in accordance with the Board established mandate limits and investment strategies.

c) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to interest rate risk as it invests funds at both fixed and floating interest rates. The risk is managed by maintaining an appropriate mix between fixed and floating rate deposits. The interest on interest bearing loans is fixed and therefore there is no additional risk.

	Weighted Average Interest Rate	**30-Jun-16 $**	Weighted Average Interest Rate	30-Jun-15 $
Financial assets				
Cash & cash equivalents	**1.98%**	**219,707**	2.2%	3,155,239
Net exposure		**219,707**		3,155,239
Financial liabilities				
Interest bearing loans	**14%**	**1,220,021**	14%	1,718,530
Stamp duty payable	**10.2%**	**1,650,000**		
Deferred consideration payable	**5.88%**	**13,197,905**	5.88%	14,614,239
Net exposure		**16,067,926**		16,332,769

d) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financing loss from defaults. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The carrying amount of financial assets recorded in the financial statements, net of any provision for losses, represents the Company's maximum exposure to credit risk. All receivables are due within 30 days and none are past due.

(i) Cash

The Company's primary banker is National Australia Bank. The Board considers the use of this financial institution, which has a short term rating of AA- from Standards and Poors to be sufficient in the management of credit risk with regards to these funds.

(iii) Trade & other receivables

While the Company has policies in place to ensure that transactions with third parties have an appropriate credit history, the management of current and potential credit risk exposures is limited as far as is considered commercially appropriate. Up to the date of this report, the Board has placed no requirement for collateral on existing debtors.

	30-Jun-16 $	30-Jun-15 $
Standard & Poors rating		
AA-	**219,707**	3,155,239

e) Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, who have built an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements.

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Company utilises share based payments to service debt commitments.

30-Jun-16	<6 months	>6 - 12 months	> 12 months	Total Contractual Cash Flows	Carrying Amount
	$	$	$	$	$

Net exposure	952,880	-	-	952,880	952,880

(f) Fair value measurements

The financial assets and liabilities of the Company are carried at fair value and are shown in the statement of financial position. At 30 June 2016 the Company has no tradeable financial instruments and therefore no valuation method for fair value measurement is required.

The Board notes a shortfall in cash to meet the obligation of the financial liabilities over the next 12 months. The Board is currently holding discussions with the majority shareholder of the Company regarding the provision of additional working capital funding. Refer to note 3(a) Going Concern for further details.

20. SHARE-BASED PAYMENTS

The following table lists the inputs to the model used:

	Executive Incentives			Employee Incentives	Broker Options
Number of shares granted	15,000,000	15,000,000 (ii)	20,000,000 (ii)	2,510,000	3,136,335
Issue date	23-May-2015	23-May-2015	23-May-2015	13-Oct-14	28-Nov-13
Dividend yield	0%	0%	0%	0%	0%
Share price at issue date	$0.18	$0.18	$0.18	$0.15	$0.21
Issue price	$0.00	$0.00	$0.00	$0.00	$0.00
Volatility (i)	83%	83%	83%	83%	82.16%
Risk free interest rate	2.75%	2.75%	2.75%	2.75%	2.75%
Exercise price	$0.00	$0.00	$0.00	$0.00	$0.20
Expiration period	2 years	3 years	4 years	2 years	3 years
Black & Scholes valuation	$0.18	$0.18	$0.18	$0.15	$0.11

(i) Volatility was determined based on the volatility of the share prices of the Company since it listed on the ASX.
(ii) Note that these incentives were cancelled per resolution on 3 February 2016

Recognised share-based payment expense

An amount of $3,376,168 was recognised as a gain on the rollback of previously recognised share-based payments during the year relating to cancellation of executive and employee incentives.

Key terms and conditions of the Executive and Employee Incentives are as follows:

- The Executive Incentives are issued for no consideration. For the avoidance of doubt, the Executive Incentives are not issued under the Company's Employee Incentive Plan, but certain rules of the Plan may apply to the Executive Incentives as if they had been issued under the Plan.
- Each Executive Incentive entitles the holder to subscribe for and be allotted one Share on exercise of the Executive Incentive.
- There is no exercise price payable upon exercise of each Executive Incentive.
- The vesting conditions applicable to the Tranche A Executive Incentives are the Company receiving:
    - written approval from the DMP to commence mining under the Mining Act; and
    - any other statutory and environmental approvals, permits or licences as required by other Government agencies before mining should begin.

For further details regarding the Executive Incentive and Employee Incentive plans refer to the notice of general meeting dated 23 April 2014 and the 2015 Annual Financial Report.

In August 2015 the Board determined that the vesting conditions applicable to the Tranche A executive incentives would be satisfied on receipt by the Company of written approval from the DMP for a Surface Water Management Plan for the Wonmunna Project. That written approval was received on 2 November 2015. The Tranche B and C Executive Incentives were cancelled by resolution of the Board on 3 February 2016.

a) Summary of options granted during the financial year

The following table illustrates the number and weighted average exercise price (WAEP) of, and movements in, share options issued.

	30-Jun-16		30-Jun-15	
	Number (i)	WAEP (i)	Number (i)	WAEP (i)
Outstanding at the beginning of the period	3,536,335	$0.22	3,536,335	$0.22
Granted during the period	-	-	-	-
Exercised during the period	-	-	-	-
Lapsed/cancelled during the period	(400,000)	($0.22)	-	-
Outstanding at the year end	3,136,335	$0.22	3,536,335	$0.22
Exercisable at the year end	3,136,335		3,536,335	

i. Stated on a post consolidation basis

The outstanding balance as at 30 June 2016 is as follows:

Grant date	Issue date	Vesting date	Expiry date	Exercise price	Options granted	Options Lapsed/ cancelled	Options exercised	Number of options at end of period	
								On issue	Vested
Employees									
22-Feb-13	22-Feb-13	-	22-Feb-16	$0.40	400,000	(400,000)	-	-	-
Brokers									
28-Nov-13	28-Nov-13	-	28-Nov-16	$0.20	3,136,335	-	-	3,136,335	3,136,335

21. RELATED PARTY DISCLOSURE

a) Parent entities

The parent entity with the group is Ascot Resources Limited.

b) Subsidiaries

The consolidated financial statements incorporate assets, liabilities and resulted of the following principal subsidiaries in accordance with the accounting policy described in note 3(b).

2016	Country of Incorporation	Class of Shares	Ownership Interest
Parent Entity			
Ascot Resources Limited	Australia	Ordinary	
Subsidiaries (direct)

Carbones de Titiribi SAS	Colombia	Ordinary	90%

c) Key management personnel

Disclosures relating to Directors and Executives are set out in Note 22 Key Management Personnel Disclosures.

d) Transactions and balances with related parties

Disclosure relating to transactions and balances with related parties are set out in Note 22 Key Management Personnel Disclosures.

22. KEY MANAGEMENT PERSONNEL DISCLOSURES

a) Key management personnel

The following persons were key management personnel of the Company during the financial year:
Directors:

- Paul Kopejtka (Executive Chairman appointed on 10 December 2012; Managing Director from 7 January 2013; Executive Chairman from 10 October 2015; Non-Executive Chairman from 3 February 2016)
- Andrew Caruso (Chief Executive Officer from 7 January 2013; Managing Director from 18 March 2015; Executive Director from 10 October 2015; Non-Executive Director from 3 February 2016)
- Francis DeSouza (Non-Executive Director from 1 January 2016; Executive Director 10 October 2015; Non-Executive Director from 31 December 2015; resigned 31 August 2016)
- Chris Corbett (Non-Executive Director from 21 September 2015)
- Shahb Richyal (Non-Executive Director from 13 October 2014)
- Nathan Featherby (Non- Executive Director from 13 October 2014)
- Mike Young (Non- Executive Director from 12 June 2015)

Key management personnel have authority and responsibility for planning, directing and controlling the activities of the Company. Key management personnel comprise the Directors of the Company and Executives of the Company. The performance of the Company depends upon the quality of its key management personnel. To prosper, the Company must attract, motivate and retain appropriately skilled directors and executives.

The Company's broad remuneration policy is to ensure the remuneration package properly reflects the person's duties and responsibilities and that remuneration is competitive in attracting, retaining and motivating people of the highest quality.

Details of the remuneration of the Directors of the Company up to 30 June 2016 are set out in the table below.

30-Jun-16	Short-term employee benefits Salary & fees $	Termination Benefits $	Non-monetary $	Other $	Post-employment benefits Super-annuation $	Share-based payments Executive incentives $	Total $	Percentage of remuneration consisting of incentives for the year

c) Material contracts with related parties

(i) Directors' Deeds of Indemnity

With every Director appointment, the Company enters into a deed of indemnity, insurance and access with each of its Directors. The Company entered into of Deed of Indemnity with Mr Kopejtka and Mr Caruso, with effect from their appointment dates. Under these deeds, the Company agrees to indemnify each Director to the extent permitted by the Corporations Act (2001) against any liability arising as a result of the Director acting in the capacity as a Director of the Company. The Company is also required to maintain insurance policies for the benefit of the Directors and must also allow the Directors to inspect Company documents in certain circumstances.

The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

(ii) Other transactions with key management personnel including their related parties

Hampshire Mining Pty Ltd

Hampshire Mining is a director- related entity of Mr Paul Kopejtka. During the financial year Ascot paid Hampshire Mining $37,833.70 (ex GST) for the 50% reimbursement of the recruitment fee associated with the appointment of the General Manager in Colombia paid by Hampshire Mining in 2013.

As part of the purchase by the Company of Carb Uraba SAS, Hampshire Mining was paid $30,000 under a deed of release relating to the Binding Heads of Agreement dated 5 September 2013 associated with the share purchase of Carbones del Golfo S.A.

Otsana Capital Pty Ltd

Otsana Capital is a director-related entity of Mr Francis DeSouza. During the financial year Ascot paid Otsana Capital Nil (2015:$102,526 (ex GST)) for consulting services in line with the agreement entered into in February 2015 to provide investor relations consultancy services to the Company. The Company agreed to pay Otsana for consultancy services at a rate of $14,367 per month . The agreement ended on 30 September 2015.

Baga River Pty Ltd

Baga River is a director-related entity of Mr Francis DeSouza. During the financial year Ascot paid Baga River $23,405 (ex GST) relating to ad-hoc consulting services provided by Mr DeSouza.

24. SIGNIFICANT EVENTS AFTER BALANCE DATE

Repayment of Sedgman $500,000 note in full 26th August 2015

On 22 July 2016, Ascot, Wonmunna Iron Ore Pty Ltd and Ochre Group Holdings Ltd ('Ochre') entered into a Deed amending the Sale and Purchase Agreement for the Wonmunna Project made between those parties on 3 July 2014 ('SPA'). Pursuant to the Deed the parties agreed:

- To amend the 'Additional Consideration' payable to Ochre under the SPA by reference to the average price received for sales of product from the Project over a defined period; and
- That interest would cease to accrue on the Additional Consideration from the date of the amending Deed until the date of the first sale of product from the Wonmunna Project.

On 2nd August 2016, Ascot and RCF agreed that the maturity date under the May 2013 Loan Note would be extended to 30 November 2016.

On 5 August 2016 Ascot entered into an A$250,000 bridge loan facility with RCF V Annex Fund L.P., an associate of cornerstone investor and substantial shareholder, Resource Capital Fund V L.P. (**RCF**). The bridge loan facility is a short term facility provided for a term that expires on 30 November 2016 while Ascot and RCF continue negotiations regarding longer term financing options.

On 31 August 2016 Mr Francis De Souza resigned as a Non-Executive Director of the Company.

On 19 September 2016 Ascot issued a total of 15,450,000 ordinary fully paid shares following the exercise of a corresponding number of Wonmunna Executive Incentives and Employee Incentives by the incentive holders.

On 21 September 2016, the Ascot Board approved the terms of a new A$3m convertible loan note offered by RCF V Annex Fund L.P. ('RCFVAF"). The offer of funding by RCFVAF is subject to certain conditions precedent including approval by the lender's Investment Committee, execution of binding documentation and Ascot shareholder approval.

25. CONTINGENT LIABILITIES

Payments due to minority holder in Carbones de Titiribi

Cash payments will be due and payable to the holder of the 10% interest in Carbones de Titiribi ('Minority Holder"):

(a) a cash milestone payment - USD$1 million upon first quarterly production annualised at 300,000 tonnes per annum from the Licences; and
(b) bonus payments - JORC reserve linked:
   (i) if less than a 20 million tonne JORC reserve of coal is delineated on the Licence Area - no cash payments will be due to the Minority Holder;
   (ii) if a 20 to 30 million tonne JORC reserve of coal is delineated on the Licence Area – the Minority Holder will be entitled to a cash payment equal to USD$0.80 per tonne of coal defined, payable USD$0.10 in cash (within 60 days of receiving the JORC certification) and USD$0.70 as production royalty;
   (iii) if a 30 to 45 million tonne JORC reserve of coal is delineated on the Licence Area – the Minority Holder will be entitled to a cash payment equal to USD$1.00 per tonne of coal defined, payable USD$0.25 in cash (within 60 days of receiving the JORC certification) and USD$0.75 as production royalty;
   (iv) if a 45 to 60 million tonne JORC reserve of coal is delineated on the Licence Area – the Minority Holder will be entitled to a cash payment equal to USD$1.00 per tonne of coal defined, payable USD$0.35 in cash (within 60 days of receiving the JORC certification) and USD$0.65 as production royalty;
   (v) if a 60 to 75 million tonne JORC reserve of coal is delineated on the Licence Area – the Minority Holder will be entitled to a cash payment equal to USD$1.00 per tonne of coal defined, payable USD$0.50 in cash (within 60 days of receiving the JORC certification) and USD$0.50 as production royalty; and
   (vi) if in excess of a 75 million tonne JORC reserve of coal is delineated on the Licence Area – the Minority Holder will be entitled to a cash payment equal to USD$1.00 per tonne of coal defined, payable USD$0.75 in cash (within 60 days of receiving the JORC certification) and USD$0.25 as production royalty.

Payments due to Ochre Group Holdings Ltd

Under the Sale and Purchase Agreement with Ochre Group Holdings Ltd for the Wonmunna Project ('SPA"), the Company is required to pay a 1% royalty on gross sales relating to the Wonmunna Iron Ore Project, 12 months post first sale. On 22 July 2016, Ascot, Wonmunna Iron Ore Pty Ltd and Ochre Group Holdings Ltd ('Ochre') entered into a Deed amending the SPA. Pursuant to the amending Deed the royalty payable to Ochre on gross sales of product from the Project was increased from 1% to 1.25%.

No other contingent liabilities were noted for the Company for the financial year ended 30 June 2016.

26. DIVIDEND

No dividend has been paid during the financial year and no dividend is recommended for the financial year (2015: nil).

27. REMUNERATION OF AUDITORS

	30-Jun-16	30-Jun-15
	$	$
Amounts received or due and receivable by Pitcher Partners Corporate and Audit (WA) Pty Ltd for:		
(i) An audit or review of the financial report of the Company	**26,500**	32,000
(ii) Other services in relation to the Company:	**-**	-
Total auditor remuneration	**26,500**	32,000

In accordance with a resolution of the directors of Ascot Resources Limited, the directors of the Company declare that:

- the financial statements and notes set out on pages 17 - 49 are in accordance with the *Corporations Act 2001*, and:

    - comply with Australian Accounting Standards which, as stated in accounting policy Note 1 to the financial statements, constitutes compliance with International Financial Reporting Standards (IFRS); and
    - give a true and fair view of the financial position as at 30 June 2016 and of the performance for the year ended on that date of the consolidated group, and

- in the directors' opinion there are reasonable grounds to believe that the Group will be able to pay their debts as and when they become due and payable; and

- the directors have been given the declarations required by s295A of the Corporations Act 2001 from the Chief Executive Officer and Financial Controller.

On behalf of the Board of Directors

Paul Kopejtka
Non-Executive Chairman
Perth, Western Australia
21 September 2016

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF ASCOT RESOURCES LIMITED

Report on the Financial Report

We have audited the accompanying financial report of Ascot Resources Limited and its controlled entities (the "Group"), which comprises the consolidated statement of financial position as at 30 June 2016, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the Group are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements,* that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF ASCOT RESOURCES LIMITED

Opinion

In our opinion:

(a) the consolidated financial report of Ascot Resources Limited is in accordance with the *Corporations Act 2001*, including:

  (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2016 and of its performance for the year ended on that date; and

  (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and

(b) the consolidated financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2.

Emphasis of Matter

Without modifying our opinion, we draw attention to Note 3 (a) to the consolidated financial report which indicates that the Group has a cash balance of $219,707 as at 30 June 2016. As of that date, the Group has net current liability position of $3,020,776. However, in order to continue operations for the next 12 months the Group is dependent upon raising additional finance. These conditions, along with other matters as set forth in Note 3 (a), indicate the existence of a material uncertainty that may cast significant doubt about the Group’s ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 11 to 16 of the directors' report for the year ended 30 June 2016. The directors of the Group are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Ascot Resources Limited and its controlled entities for the year ended 30 June 2016 complies with section 300A of the *Corporations Act 2001*.

AUDITOR'S INDEPENDENCE DECLARATION

To the Directors of Ascot Resources Limited and its controlled entities.

In relation to the independent audit for the year ended 30 June 2016, to the best of my knowledge and belief there have been:

(i) No contraventions of the auditor independence requirements of the *Corporations Act 2001*; and

(ii) No contraventions of any applicable code of professional conduct.

This declaration is in respect of Ascot Resources Limited and the entities it controlled during the year.
